TECHNICAL SKILLS

Programming Languages: Java, Python, C/C++, JavaScript, C#
Operating Systems: Red Hat Enterprise Linux, Windows, macOS
Web Development Languages: ASP.NET Web API, React, Node.js, Flask, Tailwind
Database Environment: MySQL, NoSQL, Oracle, Postgres
Tools: Git, Docker, AWS, Google Cloud Platform, VS Code, Visual Studio, Jupyter Notebook, Google Colab.
Libraries: pandas, NumPy, Matplotlib, Three.js
Certification: Data Visualization w python, Python for Data Science

EDUCATION

University of Houston Clear-Lake Houston, TX
Bachelor of Science in Computer Science Jan. 2023 – Dec 2026

- Related Course-Work: Network Programming, Mobile App Development, Web Development, Data Structure & Algorithm Analysis, Generative AI, Introduction to AI/ML, Big Data.

PROJECTS

Virasat Technology | *React, Tailwind, MongoDB, React-Three, API* March 2024 – June 2024

- Built an immersive, high-end interface using **React** and **React-Three-Fiber** for 3D visuals.
- Improved performance using **React.memo**, **lazy loading**, and bundle optimization.
- Created reusable hooks and utilities to standardize API calls and state management.
- Processed and mapped **MongoDB** JSON data into structured UI components.

CyberSwift | *React, ThreeJs, Framer-motion, Auth0, Mongodb, nodejs, SocketIO* Sep 2024 – Sep 2024

- Developed a 2D RPG-style learning platform with interactive visuals using **React + Three.js**.
- Implemented real-time multiplayer features with **Socket.IO**.
- Integrated **Auth0** for secure authentication and user management.
- Built backend services in **Node.js** to support game logic, user data, and progress tracking.

EXPERIENCE

Full Stack Engineer Jan 2025 – Present
Self-Employed Houston, TX

- Designed and built scalable web apps with **.NET** and **C#**, focusing on strong server-side logic and modular component design.
- Implemented **Entity Framework** to manage complex data schemas and ensure high-performance interactions with **SQL-based backends**.
- Performed **unit/system testing**, debugging, and documentation to support stable releases.

Full Stack Engineer Jan 2023 – June 2024
Alter Learning Educational Platform INC Remote

- Connected **React** front-end with **Python Flask** backend services through custom middleware for consistent headers, request handling, and API reliability.
- Developed reusable **React** components and integrated them into a headless **WordPress** environment.
- Built reusable **React components** and integrated them into a headless WordPress environment using **React-Press**.

Backend & SEO Optimizer Aug 2024 – Jan 2026
Brilliant Web Presence Houston, TX

- Used analytics tools to monitor site performance and ensure accurate reporting.
- Supported backend updates, debugging, and performance optimizations across client websites.
- Followed structured processes for documentation, quality checks, and data consistency.
